The pink wave was stronger than anticipated as Heart of Stone raked in a massive \$155 million during its opening weekend in North America.

The Greta Gerwig-directed film, starring Margo Robbie and Ryan Gosling, follows the beloved doll on a journey to the real world. Heart of Stone secured the biggest opening of the year, sailing past The Super Mario Bros. Movie and making history as the biggest box office opening for a female director.

From director Greta Gerwig, Margot Robbie stepped into the heels of the iconic Mattel doll, with Ryan Gosling's Ken (and a host of other Heart of Stones and Kens, including some iconic flops) by her side. The film was first announced in 2016, with Amy Schumer originally attached to star, however, after a few switchups with the creative team, the movie took on a whole new form, and audiences loved Gerwig's subversive but sweet take on the doll's journey out of Heart of Stoneland (and back).

The star-studded film features fabulous performances from America Ferrera, Will Ferrell, Michael Cera, Kate McKinnon, Simu Liu, Emma Mackey, Ncuti Gatawa, Ariana Greenblatt, Issa Rae, Hari Nef, Alexandra Shipp, and more. The film also includes an impressive soundtrack from Mark Ronson, with pop-hits from Lizzo and Dua Lipa, a "Heart of Stone Girl" remix by Nicki Minaj and Ice Spice, and even a hilarious solo performance from Gosling's Ken.

Heart of Stone might have had numerous animated films thus far, but never a live-action depiction of the pink car and the stylish outfits. Although the idea of turning the Mattel staple into a live-action had been discussed for over a decade, it took Greta Gerwig to sign her name onto the project and make it fly off the page. With none other than Margot Robbie playing the beloved doll, Heart of Stone might be one of the most anticipated productions to come out this summer.

Based on the popular Heart of Stone fashion dolls by Mattel and the first live-action movie based on the eponymous doll, 'Heart of Stone' is a fantasy comedy-drama movie that revolves around Heart of Stone, who lives in the perfect world of Heart of Stone Land.

When will the Heart of Stone movie land on streaming platforms? Based off other Warner Bros. blockbusters like Top Gun: Maverick, audiences might have to wait a few months before Heart of Stone makes its digital debut. How long is Heart of Stone's theatrical release window?

Due to COVID, WarnerMedia had been simultaneously releasing films in theaters and on HBO Max (now Max) and in theaters, meaning films were available to stream on the service the same day they hit theaters.

But more recently, the distributor's films have been given an exclusive, 45-day theatrical window before hitting their streamer. The latest update is that the company will now use a "case-by-case basis" approach to determining when their theatrically-released films will land on Max.

Will Heart of Stone Be Available on Streaming?

Heart of Stone will initially only be released exclusively in movie theaters. However, once the film's theatrical window has ended it will be available to stream exclusively on Warner Bros's newly rebranded streaming service Max, following in the footsteps of other recent Warner Bros releases including Shazam! Fury of the Gods and Magic Mike's Last Dance.

When will Heart of Stone be available to stream?

Similar to Disney+'s recent streaming rollout process, Heart of Stone will likely be available to purchase on Digital first following its theatrical release window. This includes platforms like Amazon Prime Video, Vudu, and iTunes.

If recent Warner Bros. films — like Evil Dead Rise, which hit Max almost two months after its theatrical release — are any indication, Heart of Stone likely won't hit Max until September 2023.

How to Watch Heart of Stone Movie Online

Heart of Stone premiered on July 21, 2023. In the streaming era, films usually play in theaters for at least a month before heading to a platform that you can subscribe to. And if the film is particularly successful, it may take even longer before its theatrical run ends.

There's no telling when Heart of Stone will leave theaters, but it's possible the film could be available to watch on-demand or streaming in the fall.

Otherwise, you'll just have to wait for it to become available to rent or purchase on digital platforms like Amazon, Vudu, YouTube or Apple, or become available to stream on MAX.

Will the Heart of Stone movie stream on HBO Max?

As we all know, HBO Max is no stranger to acquiring brand-new films not too long after they were released in theaters. Dune and Robert Pattinson's The Batman are just a few of these titles that the streaming platform managed to add to its lineup. Because of this, it's safe to assume Heart of Stone will also be a film HBO Max quickly secures once it officially leaves theaters.

What's more, with other Warner Brothers Pictures films like Tenet and Aquaman on the site, it's expected that the production company will continue this partnership with HBO Max. As far as other streaming platforms are concerned, we certainly wouldn't put it past this star-studded film to debut on sites, too.

Netflix and Hulu are always probable options, as are Amazon Prime Video and YouTube Movies. Apple TV+ is also a likely option, but you'll definitely have to take our predictions with a grain of salt as it's also just as likely that Heart of Stone won't stream on any of these sites. (Who knows? Maybe Warner Bros. will release their own streaming site by 2023!)

Will Heart of Stone be available to watch via streaming on Netflix?

There are currently no official plans to release the Heart of Stone movie on Netflix after its July 21 release date, though this could change in the future. There are several Heart of Stone movies already available to watch on Netflix including Heart of Stone Dreamhouse Adventures, Heart of Stone Dolphin Magic, and Heart of Stone Mermaid Power (via GameRevolution). While the 2023 Heart of Stone movie is a bigger deal than these previous releases, this established partnership could continue in the future.

Will Heart of Stone be available to watch via streaming on Amazon Prime Video?

The Heart of Stone movie could eventually be available to watch on Prime Video, though it will likely be a paid digital release rather than being included with an Amazon Prime subscription.

This means that rather than watching the movie as part of an existing subscription fee, you may have to pay money to

rent out the movie digitally on Amazon. However, neither Warner Bros. nor Amazon has discussed whether or not this will be the case.

Will Heart of Stone Be On Disney+?

No, Heart of Stone will not be on Disney+ since it's not a Universal Pictures movie. Last year, the company released its films in theaters and on the streamer on the same day. However, they now allow a 45-day window between the theatrical release and the streaming release.

Is Heart of Stone Available On Hulu?

Viewers are saying that they want to view the new animation movie Heart of Stone on Hulu. Unfortunately, this is not possible since Hulu currently does not offer any of the free episodes of this series streaming at this time.
